PROOFS OF THE SUPERIOR OUALITY - OF THE -

American Watch - MADE AT -

Waltham, Mass.

The American Watch Company, of Waltham, Mass., re-pectfully submit that their. Watches are cheaper, more accurate, less complex, more durable, better adopted for general use, and more easily kept in order and repaired than any other watches in the market. They are simpler in structure and therefore stronger, and less likely to be injured than the majority of foreign watches, which are composed of from 125 to 300 pieces, while in an old English watch there are more than 700 parts How they run under the hardest trials watches can have, is shown by the following letter:

PENN. RAILROAD COMPANY. OFFICE OF THE GENERAL SCREENIEMDESS, ALTONA, PA., 15 Dec. 1866.

GENTLEMEN: The watches manufactured by you have been in use on this railroad for several years by our enginemen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable timescepers. Indeed, I have great satisfaction in saying your watches give us less tmoules, and have worn and do wear much longer without repairs than any watches we have ever had in use on this road. As you are aware, we formerly tracted to those of English manufacture, of acknowledged good reputation; but as a class they never kept time as correctly, nor have they done as good service, as yours.

In these statements I amountained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

EDWARD H. WILLIAMS.

General Superintendent.

American Watch Co., Waltham We make now five different grades of watche named respectively as follows:

Appleton, Tracy & Co. Waltham, Mass. Waltham Watch Company, Waltham, Mass. P. S. Bartlett, Mars. Waltham, Mars. Wm. Ellery, and and Boston Mass. Home Watch Company, Boston, Mass.

All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company to be of the best material, on the most approved principle, and to possess every requisite for a reliable time keeper. Every dealer selling these watches is provided with the Compa ny's printed card of guarantee, which should ac-company each Watch sold, so that buyers may feel sure that they are purchasing the genuine article. There are numerous counterfeits and imita-tions of our Watches sold throughout the country, and we would caution purchasers to be on their guard against imposition.

Any grades of Waltham Watches may be pur chased of Watch Dealers throughout the country ROBBINS & APPLETON, 182 Broadway, New York. General Agents.

OUT of Humon,-" Scout," a correspondent of the Appeal, is terribly exercised in regard to our denial of his statement that "many of the ranches in American Valley are offered for sale at a less figure than the buildings on them cost." He gets wrathy, and intimates that that we were joking. If the bold soldier boy from Michigan, who, according to his own story, fought, bled

and starved to death during the late war, had said "improvements" instead of buildings, (as his informant, Mr. D., told him) there would have been more sense in the statement, but then it would not have been true. The improvements on one or two of the ranches, have doubtless cost more than the ranch could be sold for, but the buildings,-well, that is rich !" "Scout," we are afraid that your sojourn in Andersonville affected your wits. We sympathize with you, hence we can easily overlook your foolish and uncalled for display of ill humor. Besides we should be ashamed to beat a cripple with a club, and as we believe you are, intellectually, a cripple, we shall make no attempt to reply to your weak abuse of us. Go in. "Lemons."

COMPLAINT.—Considerable complaint is gainst those whose duty it is to transfer the mail matters from the steamers to the postoffice, for the procrastinating manner in which they perform the duty. The Appeal need not complain of " five days." Up here we wait ten and twelve days for any portion of the mail to arrive, and don't grumble "muchly" at that short delay, for we have positive information that there has been considerable of a fall of snow on the mountains during the past week .-"Five hours" and "five days," indeed! He would then learn to appreciate the many blessings enjoyed by lower country editors, when compared to the situation of their brother quill drivers in the

THE GALAXY FOR 1868.—The December number completes the fourth volume of the Galaxy. With increased experience of the public, and much greater resources, the publishers are confident of their ability to make the succeeding volumes of the magazine still more attractive than those already issued. Their aim is to make the Galaxy a magazine which, while it shall always be readable and entertaining, shall also mantain a high standard of literary excellence; possessing sig-nificance to the thoughtful reader, at the same time that it offers lighter matter for those who seek merely recreation in the pages of a magazine.

Among the special features of the Galaxy for the new year will be :

A series of articles on a timely subject, by Wm: Swinton, the well known historian of the war. A series of papers by Rev. Robert Collyer, of Chicago, on subjects of practical rest, Richard Grant White will complete his series of papers on "Words and Their Uses," and will follow them with other significant papers. LA PORTE, Jan'y 24. It is feared that the meeting of the Alturas Snew Shoe Club will have to be postponed from February until July. The snow has all disappeared—even Pilot Peak has shed its snowy mantle. Brewster's stages are making regular trips to Howland Flat and Downieville, and the drivers report that no snow is in sight on those routes.

SACRAMENTO, Jan'y 22d. The mud on K street was found by actual neasurement, made to-day, by a competent engineer, to be 47 feet, 81 inches deep.

San Francisco, Jan'y 23. With their usual liberality, the proprieors of the Bulletin have presented Emperor Norton with a magnificent suit of worn out satinet breeches, and an old hat. The chief editor made a presentation speech, which was replied to by the Emperor, in his most happy style. The liberality shown by the Bulletin's proprietors, is the chief topic of conversation in the city, to day.

SACRAMENTO, Jan'y 24. Westmoreland, of Humbelt county, has ntroduced a bill into the Assembly, requiring the Sacramento Union reporter to report all of his speeches, in full, and providing for the publication of \$0,000 copies of each, to be used as electioneering documents during the next campaign. PASSING EVENTS -The memory of the oldest inhabitant cannot recall to mind but one snow storm equal to that of the last two weeks—that was in 52, when the snow, according to all accounts, fell in twenty-four hours to the depth of four feet. The roads are all blocked up. No mail has been received from below since last week, and our latest dates from the Sacramento Valley are up to the 9th inst., only sixteen days behind. The snow between Bucks and Buckeye is about twenty-five feet deep on the level, and yet, Garland and his men are working like "Troians" to keep the road open for travel with teams. Not a stranger has come to town from whom we could learn any 'ttems of news' of any importance. The snow in this town, by actual measurement, on Thursday night last, was four feet three inches deep, and, as a matter of course, many of our citizens were compelled to shovel snow from the reofs of their dwellings and outhouses to prevent their caving in, and in several instances, where the owners neglected that precaution their sheds and porches went down. The damage, so far as we have been informed, will mount to but a trifle. " Waiting for the mail," is the chief occupation of a majority of our citizens at the present time. This is the winter of discontent to mountain newspaper men, and it is. also powerful rough on the mail carriers and stage line proprietors. In fact, its pretty severe on all the residents of this section of the State. How it affects the Central Pacific R. R. and the balance of the State, we know not.

Dogg. - We are informed that the woods around La Porte, Gibsonville, Newark, Sawpit and Gruss Valley are daily filled with men and boys, gathering pitch to be used in making "dope," prepanatory for use at the races which come off at La Porte during the first week of next month. Great excitement exists in regard to "dope." Each one is anxious to possess the fastest, and all are experimenting with the various mixtures, to see if they can not produce a little faster dope than was ever before made. More interest is being manifested in regard to the snow shoe races than in anything that has taken place in that vicinity for a long time.

REVIVAL .- Protracted meetings are being held at Taylorville. They draw full houses, and quite number, some ten or twelve, says a correspon dent, have been brought to the mourner's bench. The Reverends Anderson and McGrath preside. The work still goes vigorously on, and the Rev. gentlemen insist that they are bound to capture more prisoners from the ranks of the devil, before the fight shall cease.

A CHAMPION .- Francis Lynn, the self-constituted snow shoe champion, has, as yet, failed to notice the acceptance of his challenge for a race by the Alturas Snow Shoe Club. We recken that he wanted to make a little blow, and did not mean business when he issued the challenge.

DR. CHARLES II. TOZER'S PRIVATE MEDICAL INSTITUTE

Corner Kearney and Jackson streets, San Francisco.

The Great Eradicator of Special Complaint Formerly of Locke Hospital, London, Eight Years in Sacramento and The Last Four in San Francisco.

DR. TOZER'S experience is of forty years standing, and uring that time he has met with unparalled success in the treatment of all those diseases generally known as

Venereal or Chronic.

Venereal or Chronic.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will ease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints, and seek advice in time, thereby sawing them a world of suffering: Nervous Debility, Loss of Memory, Pain in the Limbs and Back, Palpitation of the Heart, Trembling of the Limbs Headache, and an aversion Genial society, especially that of Females. There are a great many more, but these are sufficient, and should you be suffering from any of them, call on DR. TOZER, and he will cure you in a short time, without any intertup tion in your business—or state your case by Jetter and there will be no occasion for your calling at the office.

Stricture of the Urethra Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourself of its terrible results. The worst cases cared in a few days.

Venereal Diseases,

In all their various forms, either Primary, Secondary or Hereditary, eimpletely eradicated from the system. Your constitution being restored to perfect health, there will be no danger of handing down to your children that terrible disease known as Scrofula.

Syphilitic Disease,

As it presents itself on this coast is of a more formidable character than that seen in the Atlantic States or Entope, arising from the fact of its being a compound. Spanish, Chinese and Sandwich Island disease. Those of you who have visited the two latter countries no doubt have seen the dreadful effects of it on both the native and foreign population. It requires altogether different modes of treatment.

The Old Formulas Of Ricord, Acton and Bostwick are of little account, except to dry up the disease on the surface, leaving the poison in the blood. These facts I have learned by experience and think I can say without boasting, that I have seen more practice in these diseases than any other physician in California, dating as it does from 1849.

My Plan is Purely Vegetable, Destroying the disease and purifying the blood, so that there is no danger of secondary symptoms.

RHRUMATISM, NEFRALGIA, and diseases arising from the use of Mercury, Impurities of the Blood, cured in a short time by the use of VEGETABLE MIXTURES, known only lo myself.

Laures suffering from the Whites, Piles Weakness of the Back, Pain in the Side, Headache, Palpitation of the Heart Berangement of their Monthly Sickness and all other diseases that the female system is subject to, will find prompt relief by applying at my Institute San Francisco; corner of Kearney and Jackson streets. myself.

Dr. Chas. H. Tozer—Pear Sir; You will excuse the for not writing to you sconer. You will please remember me as the individual who called on you for assistance about a year azo. The roof of my mouth had completely rotted out, and my palate dropped down and there remained, stopping up the passage sp that I dould hardly eat. You remember you cut it out at once, which relieved me immediately, and I was enabled to swallow my food, and in a short time began to improve. I took your medicine and followed your directions for several months. You finally succeeded in stopping the disease, saving my nose and upper lip, though you frequently cautioned me about losing it. I continued to improve until you finally recommended me to go into the cautury, and before going, by your advice, I had a cast taken of my mouth, that I might have a plate made for me to enable me to speak so as to be un-SACRAMENTO CITY. I am now in Sacramento City, enjoying good health, and I shall recommend all my friends to call on you, should they be so unfortunate as to require assistance; and I would advise all persons to avoid certain scientific doctors in your city, for they will send them to a land from whence no traveler returns.

Quick Cures & Moderate Charges. DR. W. K. DOHERTY'S

Private Medical & Surgical Institute Sacramento street, below Montgomery, opposite the Pacific Mail Steamship Co's office. Private entrance on Leidesdorff street. San Francisco.

Established expressly to afford the afflicted sound and scientific Medical aid, in the treatment and cure of all Private and Chronic Diseases, cases of secrecy, and all sexual disorders.

TO THE AFFLICTED -Dr. W. K. Doherty returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all pri /ate Diseases, viz : Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse Gonorhoea, Gleet, Strictures, Nocturnal and Diurnal Emissions, Sexual Debility. Diseases of the back and loins, Inflammation of the Bladder and Kidneys, etc., and he hopes that his long experience and successful practice, will continue to insure him a share of public patronage. By his practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him by letter or otherwise

will receive the best and gentlest treatment and implicit secrecy. DR. DOHERTY would call attention to the fol lowing certificates, from two of his patients, who, having fully recovered their health, desire to make known their remedial agent. It will be seen their statements are fully authenticated by a Notary

The welfare of society imperiously demand their publicity and they are given more to warn the un-wary than to sound the praises of a Physician, of whom hundreds of like cases can be cited, during a practice of more than fifteen years.

A CASE OF GLEET AND STRICTURE :-Dr. Doherty—Dear Sir: I feel my health o fully restored, that in common gratitude, I pelieve I should make some written acknowledgment for your valuable services- particularly so as your fee was small for the work performed. I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with stricture. Being a stranger in this city, and believing those doctors who gave such positive assurances of success were necessarily the best (some of whom have a large number of titles,) I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money. I wish to say now that you are the sixth Doctor I have employed and the order of the local and the control of the local and the loca ployed, and the only one that has ever done me any service. My Gleet is wholly cured, the stricure is all removed, and my general health is better than it has been for years. In conclusion I would say to the many unfortunates who require medical advice, if you have any doubt as to vou may employ, ask Dr. Doherty for my address, and call and see me, (I keep store in this city.)— My experience may save you many dollars. would also add that in the early stage of my dis would also add that it the preparations advertised as an infallible c re for Gonorhoea, Gleet, etc., but never derived any benefit from them. I

m, Doctor, very truly yours. San Francisco, June 16th, 1864. Subscribed and sworn to before me, this 21st day of June. 1864. A. S. GOULD, Notary Public. SEMINAL WEAKNESS .- A sworn to certificate of a most remarkable cure of Spermatorrhoea— A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to A desire to penetry alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhoea." or Seminal weakness, the result of self-abuse, but till 1855 experienced but little trouble or inconvenience in that year, however. I had Seminal weakness to a fearful extent, which was soon followed by the most alarming symptoms, as weakness of the back and limbs, pain in the head, dinness of vision, nervousness and general debility. My mind too, was afflicted to such an extent as to seriously impair my memory my ideas were confused and spirits depressed, I was averse to society, had evil forbodings and self-distrust and was entirely unfit for any of the duties of life. From 1855 to the summer of 1863. I employed the very best medical talent I could find and spent-several hundred dollars but in no instance obtained more than temporary relief, I had about concluded there was no relief for me in this world, but reading Dr. Doberty's advertisement I would be benefit from his treatment. WOELD BE EQUALLY USELESS AND UNNECESSARY I WUELD BE EQUALLY USELESS AND UNNECESSARY to enumerate here the Diseases cured at the Institute. All classes of Complaints are treated; but I consider it my duty to mention those of a special nature as upon such the unfeeling and irresponsible quack dwells, with phrases well calculated to deceive those ignorant of the emptiness First among the special complaints is

SEMINAL WEAKNESS.

I am aware that by dwelling upon so uninviting a subject as the decay of manly vigor through the loss of the vital principle of life, the ignorant may asperse my motive; but the desire to point out to those who suffer languish and decay, the true cause of their affliction, is too great an incentive to be forced into aleyance. How extended the terrible disease of Seminal Weakness is no one but the gracilical specialist who devotes his time to its treatment can tell, but its presence can be detected by the most inexperienced by noting the following symptoms: Weakness of the back and limbs; languishing feelings; loss of muscular power; pervousness: irritability; cold feet and hands, accompanied by hot head; symptoms of consumption; short breath and limbs: languishing feelings; loss of muscular power; nervousness; irritability; cold feet and hands, accompanied by hot head; symptoms of consumption; short breath flushings of the face; aversion to society; confusion of the mind; loss of memory; nightly emissions; colorless, slight discharges upon the least excitement; trembling; palpitation of the heart; irregular appetite; variable temper, etc.

YOUNG MAN if you experience any of the various symptoms enumerated above, pause to consider. The present is the golden moment in which you may secure health and happiness. You may feel strong now, but if you have ever practiced the vice of self-abuse even in the slighest degree, you have the seeds of the weakness in your system, and their undermining influence will, sooner or later, dash the fair edifice of your strength to the ground, leaving you a helpless, abject being. It is not a disease that declares its elf at once. Therein lies, its great danger; for while the patient is being treated for some supposed affection of the Heart, Lungs, Brain, or Digestive Functions, he sisks; into a general debility that soon adds him to the list of the victims of the terrible disorder, Seminal Weakness.

See in the bent form and languishing steps, the poor victim of the fascinating vice! Mark the course of the destructive complaint in the hollow cheeks and dull eye!

Prowsiness is one of the premonitory symptoms. At first it is easily shaken off, but it grows eventually into a great distinctination to pursue his regular business: The mind becomes apprehensive, and restless nights sudeed days of depression.

It is the nature of the complaint to assume sudden chan-ges that leave the poor victim but little hope of recovery. In a single-instant it may wither your fond hopes and blast

your honest aspiration.

Marriage is sought by a natural impulse as a hope of relief. This is an error of the first magnitude, for the system upprepared for the exigencies of the occasion, suddenly fails, and he finds himself in a deplorable condition, from which there is but the slightest hopes of recovery. Or if the marriage should result in offspring, they are puny, distorted, decrepit and degenerate.

AN UNSOLICITED

TESTIMONIAL OF CURE.

Let all who are afflicted with Seminal Weakness read the sworn-to-Certificate, first published without the Doctor's knowledge. A remarkable case, [Revenue stamp.] This is to certify that I was afflicted with Seminal Weakness to a degree that brought on severe fits. The trouble commenced about three years ago, when I first learned that the practice of self-abuse was ruining me. I first had nervous trembling of the limbs, pains in

afflicted with Venereal: There are no maladies worse than those arising from the contamination of venereal poison. None are more terrible in their effects, or more disastrous in their results. After upwards of twenty years' practice in diseases of a private nature—fifteen of which have been in this city—I unhesitatingly declare that *Marcury will not cure *Venereal, but dries it on the surface, to allow it to poison the blood, to re-appear in hideous marks upon the body, and in the throat, mouth and nose: Those who have had any form of Venereal, and were treated with Mercury were not cured, but they still have the jestering virus lingering in the system and feeding upon the delicate tissues to be communicated to the wile or transmitted to the children. As terrible as it is in the person who contracts it, it becomes of still greater importance when transmitted to innocent offspring, whose were heads, cankered months, diseased timbs, running eyes and blotched skin are the constant reproaches to the sins of the parent. IMPORTANT TO FEMALES.

When a female is in trouble or afflicted with disease, and requires medical or surgical assistance, the inquiry should be. Where is there a physician who is fully composed to administer relief, and whose respectable standing in society Will recomend him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and by calling the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and sangically, not in a superficial tanner, but in as thorough, a manner as years or study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and lesigning. Therefore, families can rely upon him as upon a father. All in affliction can find in him one who can feel and sympathies with and betriend them in trouble—one in whose secrety the utmost confidence can be placed—consultation by letter, or otherwise free.
